

munich agentic hackathon

part of **EHL**

let's get straight to business

there is no better way to spend the weekend than hacking for 24h fullled by monster energy and ...

... working on challenges from leading startups and next-gen disruptors

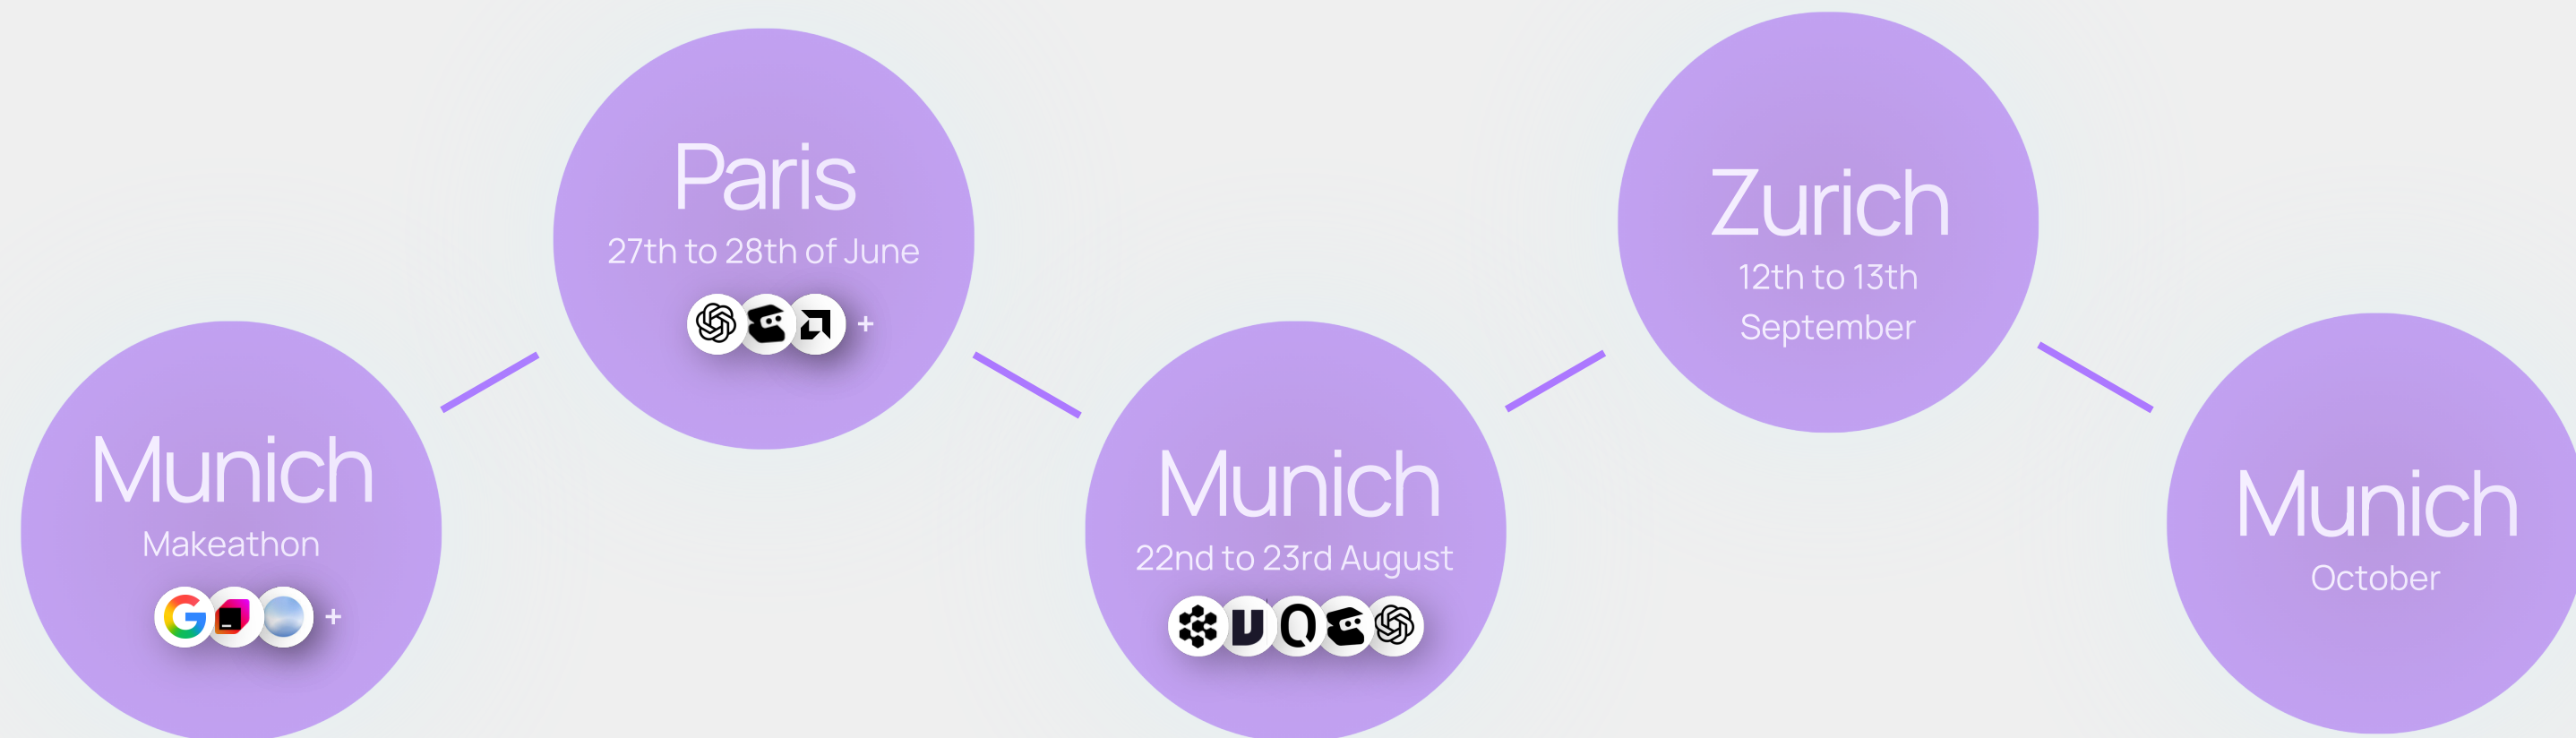

quantco  viktor.com  Cognition

... using credits and support from market trailblazers

 OpenAI  Entire

we are back, baby!

The munich hackathon is the third stop of the European Hackathon League, a series of events in which teams solve real world problems

our vision

we want to connect builders and students across Europe to

... showcase the best technical talent

... create bridges across eco-systems

... inspire the next-gen of founders and researchers

our game plan for the weekend

Saturday

10:00 Intro & Challenge Presentations

11:15 Team Formation & Challenge Selection

12:00 Lunch

Hacking starts 12:00

13:00 Technical Onboarding by Entire

14:00 Talk "How OpenAI uses Codex internally"

15:00 Devin Workshop by Cognition

Hacking & Get to know our amazing partners ✨

19:00 Dinner

Hacking - no time to sleep 😩

fulled by 

Sunday

8:00 Breakfast

Hacking

 Submission deadline 12:00 

12:00 Lunch

12:30 Challenge Pitches pt1

14:15 Finals - Pitches pt2

15:30 Prize Ceremony & Closing

Shaping the Future of AI

Let's introduce ourselves

We are Germany's largest AI student initiative.

Started applications per batch

2100+

Acceptance rate per batch

2.3%

Official members

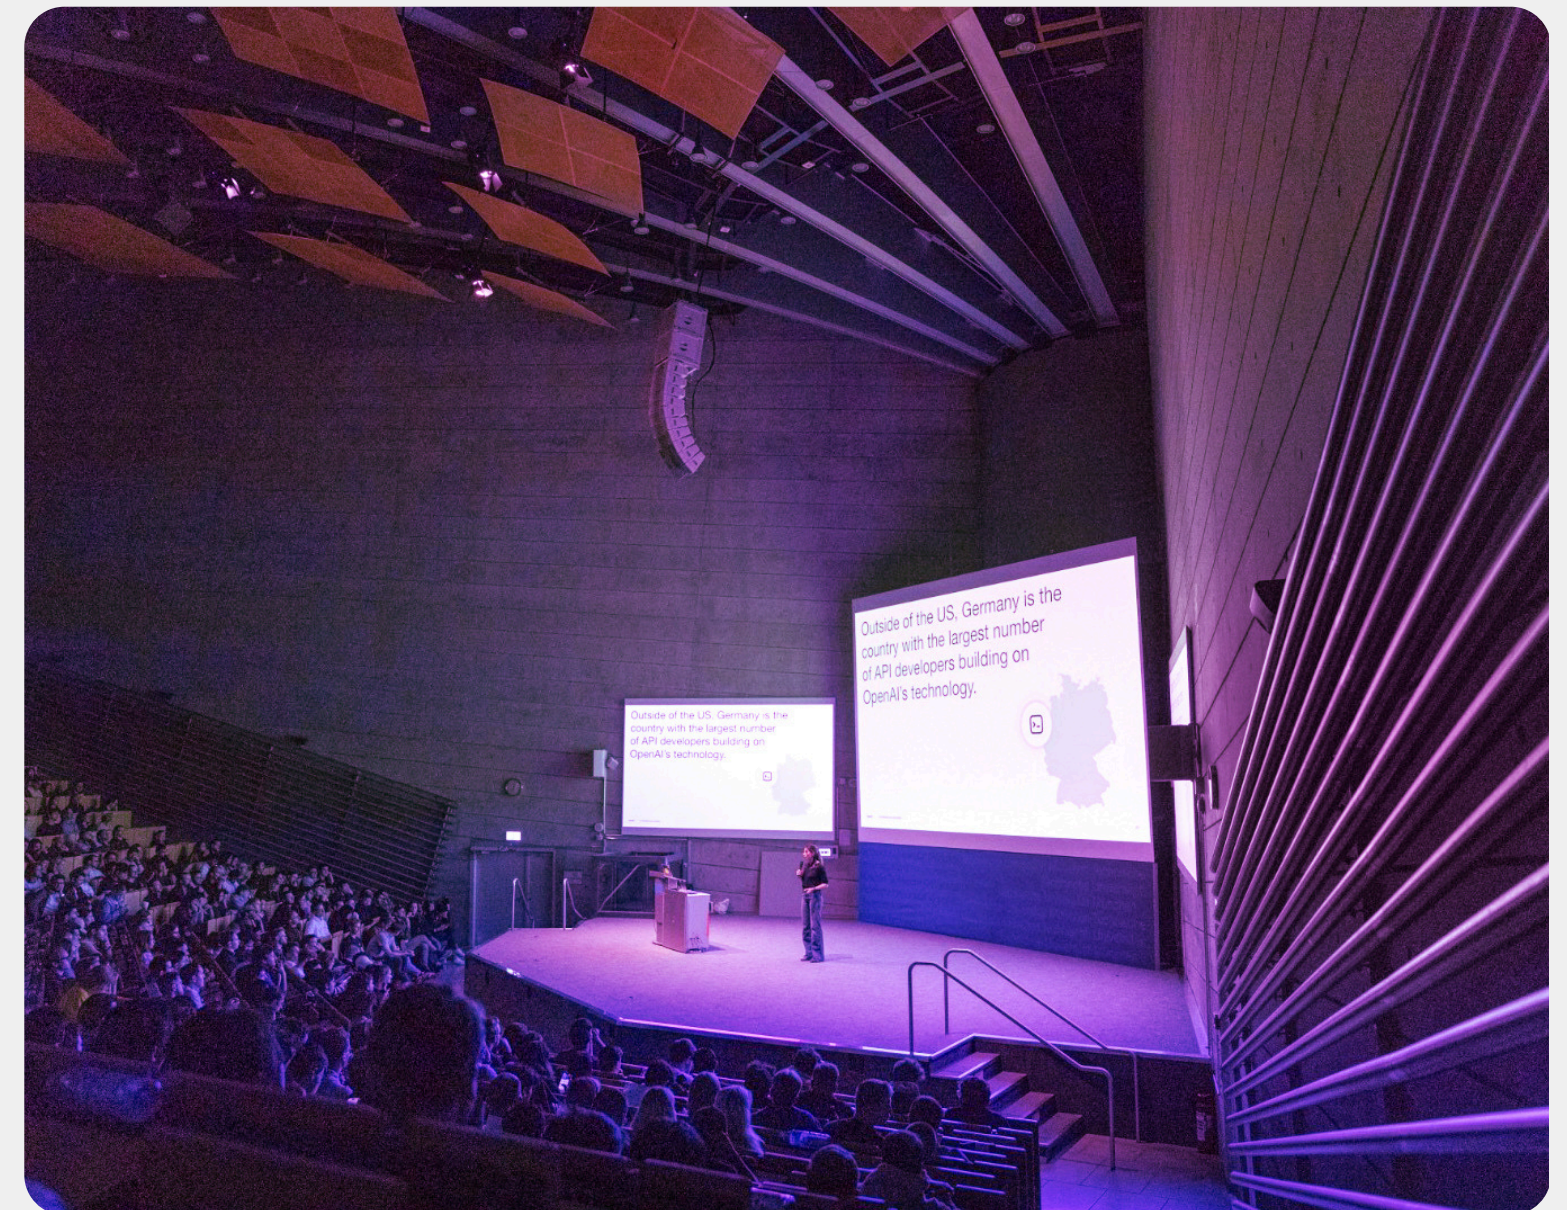

1000+

150 active member (850 alumni)

1.2M+

Regular Engagement rate over 30%

The cracked 2%

Leonie

Freisinger

Co-Founder & CTO @Dryft
\$5 Mio. raised, GC/Neo-backed

Mohamed

Elrefaie

PhD Researcher @MIT
Schwarzman College

Jasmin

El-Wafi

ML Consultant & Systems
Architect @AWS

+1000

top tier individuals

20+ Majors
30+ Universities

where they go afterwards

McKinsey
& Company

Meta

Three Pillars - One Ecosystem

Research

5+ Publications

at Top-Tier Conferences

MIT

Cambridge

Harvard

IBM Research

- Collabs with frontier AI labs at MIT, IBM, Cambridge, Harvard
- Path to NeurIPS, ICML and ICLR papers
- Partners shape the research agenda directly

Hackathons

2500+ Hackers

over all our Hackathons

OpenAI

AWS

Anthropic

Google

- 500+ hackers at our signature Makeathon
- European Hackathon League across 4 cities (Munich, Berlin, Zurich, Paris)
- Partners host challenges, booths, company pitches

Venture (E-Lab)

8M+ Raised

raised by alumni (and counting)

YC

EWOR

Spherecast

Mercura

dryft

- 25 teams each Incubator iteration
- Alumni backed by YC, EWOR and top VCs
- Partners join exclusive demo days early

give it up for our
challenge super-stars

Cognition track

cool, how do we get started?

1) Select your teams challenge on ehl.gg

Access to credits and compute is distributed via discord and e-mail afterwards

Ask questions about the challenges on discord or find the challenge setters

2) Setup your repository and install Entire

Join the technical onboarding session

If you do not use Entire, your submissions will be rejected

3) Submit your solution on ehl.gg

After challenge submission you will pitch your solutions in front of our judges.

Pitching rooms are annouced on discord

please welcome
Entire on stage

some final administrative points pt1 📢

The notion page is the single source of truth

You can find guides on challenge selection, Entire setup, and challenge submission on Notion

For further questions find us at the reception or ping us on discord for questions - do not use private messages but **# ? -ask-orgateam**

some final administrative points pt2 📢

Sunday 12:30 Challenge Pitches - three parallel sessions

the rules: kiss (keep it short and simple), only use slides submitted on ehl.gg

5min pitching & demo presentation

3min jury questions

Sunday 14:15 Final Pitches - with our hack council

introduction of the hack council

the finalists will be called on stage one by one for their presentation

let's meet dryft

some final administrative points pt3 📢

building a convincing winning pitch

1) The solution

Break down your unique idea

What makes it fundamentally different?

2) The Demo

Show the product solving the problem

How would we use your solution?

3) The proof

Show us metrics, results, benchmarks or anything else to make us believe in you

Why are you the best?

our house rules 🏠

Please clean up after yourself, throw away empty bottles
and keep the space tidy

Be respectful and considerate to everyone; if you feel
uncomfortable please approach us

You can stay here overnight

Do not commit any crimes under German legislation,
please and thank you

Post fire memes into the #😂-memes channel

Let the hackathon begin!

Everyone who is still looking for a team, please meet in at the Monster station to mingle
